

# Frye Island News Service

VOLUME 2014, ISSUE 24

OCTOBER 17, 2014

## Island Manager's Comments

### FINAL FINS FOR 2014.

First I would like to thank all the candidates that volunteered to run in our elections last Saturday. It is the spirit of volunteerism that makes Frye Island such a special place.

### Election Results:

**Ronald Cedrone** will be our new Selectperson.

**Timothy McCarthy** was re-elected to the Executive Committee (BIT)

**Harry Ledgard** and **John Schutz** were elected as new members to the Executive Committee (BIT).

### November 4, 2014 Election Day

Election will be held at the Ferry Trailer. Polls open at 10am and close at 8pm.

### Absentee Ballots

The last day to pick up absentee ballots for the upcoming November 4<sup>th</sup> election on the island office location will be Saturday, October 25, 2014. Please plan accordingly.

### E911 Addresses

The E911 addresses will be in effect when the island opens in April of 2015. You will be able to find your number on a website posting to be done within a few weeks. Details will follow for installation.

### Town office move:

The office will be relocating to the Ferry Trailer for the winter season on October 28, 2014. We would appreciate your completing any unfinished business by the close of business on Saturday, October 25, 2014. It usually takes 3-5 days to get the operation up and running smoothly.

### Property tax procedure.

The Town of Frye Island mails out your annual property tax bills the first week of November. At the bottom of each bill there are two remittance coupons. The first payment is due by December 31<sup>st</sup> of the year mailed. The second remittance is due by June 30<sup>th</sup> of the following year. If you have an unpaid balance after June 30<sup>th</sup> a certified letter is mailed to your address on file as a 30 day notice. After the lapse of an additional 30 days the liens are attached to the property in arrears. After 17 months the property owner will receive another notification warning of foreclosure. 30 days later the subject property will be foreclosed.

### Long Beach Marina: Last day is October 19, 2014.

The docks will be removed on Monday, October 20, 2014.

**Please remove your boats by this date!!!**

### Email Addresses

We will be emailing the Winter News Letter and Annual Report. Please make sure that your current email address is on file with the office. We presently use the email addresses from your ferry accounts. If you do not have a current email on file please forward to the Town Clerk at [fitownclerk@fairpoint.net](mailto:fitownclerk@fairpoint.net). Please include your full name along with email address.

**NIXLE:** Our NIXLE system is up and running. This system will notify all subscribers of important / emergency notices in their selected areas via text, web, and email. The best part of this is that it is a free service to both the municipality and to residents as well. We can initiate notices to all Islanders that subscribe to the service. However, in order to access the notices you will be required to subscribe. You can subscribe by going to their website at [www.nixle.com](http://www.nixle.com) and following the prompts. I would encourage everyone to subscribe to this service. It is an ideal way to be notified of issues that may affect your time on the Island.

Everyone have a safe winter. See you next spring!  
Gary Donohue

---

## Code Enforcement Officer

John Thompson's last day for this season will be October 23, 2014.

## Transfer Station

Saturday 10/18/14: 10AM - 6PM

**Emergency: 911**

**Non-Emergency Police Dispatch: 207-893-2810**

## MEMSRR 2014 Frye Island Rescue Service

### EMS Stats

In an effort to provide feedback and help improve the quality of the reports entered into the Maine EMS Run Reporting (MEMSRR) System, Maine EMS sends services quarterly progress reports. These reports will begin by focusing on Report Entry Time and Report Validity. This report looks at the preceding quarter and provides a snapshot of our services performance. The enclosed report is for 2014 season

### 1. Report Entry Compliance

Maine EMS rules require services and providers to enter patient care reports into the MEMSRR within 1 business day. For patient care purposes, services and providers should strive for as soon as possible! Providing a complete and timely run report is an essential part of providing quality patient care and is an obligation we have to each patient.

Providing a complete patient care report is the only skill we perform in every patient encounter. The information documented in a run report is an important part of the patient medical record and is invaluable in assisting with patient treatment decisions.

**Frye Island Rescue Service score-100%**

---

## **Report Validity**

The MEMSRR validity rule system helps guide providers towards a complete report. The validity score helps administrators identify reports that are missing critical elements of a report; a lower score means that more elements are missing. Reports do not need to be 100% to be complete; however, this system helps identify reports that should be reviewed. Ideally, a service would have an average validity score between 80% and 100%.

Completed reports are utilized at a number of levels. A service can use this information for quality assurance and improvement activities to ensure the population of its coverage area are receiving the best care possible and resources are being utilized to their full potential. Hospitals use the reports to make clinical decisions and shape the care the patient receives both in the emergency room and after admission. Primary care physicians will use the information to determine the care that is necessary to ensure proper care and safety for their patient when they return home.

Pre-hospital protocols are also influenced by the information documented on patient care reports. With each protocol revision, information from the EMS patient care report has been used to determine the effectiveness of treatments and provide insight on what EMS services and personnel are experiencing for calls in the field. This will help guide the Medical Direction and Practices Board (MDPB) to develop protocols enabling the safe and effective treatment of our patients. For any of these benefits to occur, services must ensure that providers are entering a complete and accurate run report.

### **Frye Island Rescue Service score-99.7%**

As of September 30, a survey of the Frye Island Rescue Service calls for patient care was averaged over an approximate 30 calls to date. I am pleased to report that the average time the Frye Island Rescue Service reaching a patient with a licensed EMT from tone out to on scene is **2 minutes 38 seconds**. For any of these benefits to occur, services must ensure that providers are entering a complete and accurate run report.

### **New NG 911 Addresses Coming Soon**

The Island's new address system mandated by the State is complete and will be released soon. What this means to an island home owner is that we will no

longer be recognizing traditional lot numbers as a residence address. The island will be transitioning to the more traditional numbering system we all are familiar with at our mainland homes, with even numbers on one side of the street and odd numbers on the other side of the street. The lot number we are all accustomed to will not change, it will just no longer be your address. The anticipated roll out for this will be this fall. This information will be included with your tax bill. The new address system will be given to the phone company to be input after the island closes this Fall 2014, and will be in full effect when we all return to the island in the spring of 2015. The new street number placards will be purchased by the Town and will be uniform for every residence. Installation of the numbering system is under consideration by the Board as to how to smoothly facilitate the change. This change in numbering is an important improvement for a number of reasons. This will facilitate quicker response from your Police, Fire and EMS Departments. This will also allow island addresses to be input within phone company software so emergency dispatch centers can give accurate address locations to emergency personnel for emergency situations. And last but not least this change will finally make sense of our address system.

### **Garden Club**

THINK SPRING!!!

It may be difficult to think about spring when winter is yet to come but the Garden Club is busy planning their Plant and Bake Sale. It will take place on the Saturday of Memorial Day weekend, May 25, from 9 to noon. Why do you need to plan now -- because if you live on Frye Island, you are a member of the Garden Club and we need your help. We need raffle items, baked goods, seedlings from your garden and your presence to support the sale. Think spring and plan now to help your Garden Club.

Be watching for updates on the raffle being planned for the next Memorial Day Garden Club flower sale. We are working on some great raffle prizes including \$100.00 gift certificate to the Good Life Market.

Photo Shoot for family portrait or special occasion, 18-hole golf for 2 plus cart, and much more! Tickets will go on sale next May before and during the sale. Bobbex: Protect your plants from hungry deer. Call Nancy Perry at 655-5221 to get your Bobbex (concentrated form only).

---

### Windham Food & Clothes Pantry

Please drop all your non-perishable goods and clothing at the bin located next to the Post Office near the ferry landing. All donations will be appreciated and taken over to Windham weekly.

### Frye't Fest 2014

Thanks to the over 200 people who attended! In addition, thanks to Ali Hodge and Helen McKee for helping to organize. Thanks also to the many volunteers that made this such an amazing event!! We are already planning how to make it even better next year! More pictures can be found on our Facebook page.
