Island Manager's Comments

This is the final FINS of the season.

THERE WILL BE AN EXECUTIVE COMMITTEE MEETING SATURDAY, OCTOBER 17, 2015 AT 9:00 AM AT THE FIREBARN TRAINING ROOM. THIS MEETING IS OPEN TO THE PUBLIC.

THE TOWN OFFICE WILL BE CLOSED SATURDAY, MORNING, OCTOBER 17, 2015 DUE TO AN EXECUTIVE COMMITTEE MEETING. THE OFFICE WILL REOPEN WHEN THE MEETING IS OVER. (Call the office to see if we have opened before coming down)

The last day that the Town Office will be open is Saturday, October 24, 2015. The office will be moving to the Ferry Trailer on October 27, 2015.

Thank you to all dedicated Frye Island employees and volunteers for another fine season. Special thanks to my extremely supportive administrative staff.

I would like to congratulate the candidates that took part in the process of democracy. Special thanks should be noted to John Nun and Robert Sutherland for their years of service to the Island of Frye. I would also like to congratulate Betsy Gleysteen and Frank Limauro and wish them well in their new endeavors as Selectman and Executive Committee Member. I look forward to working in the spirit of cooperation with the entire Executive Committee.

Long Beach Marina Docks will be removed Monday, October 19, 2015. Please have boats removed prior to this date.

Winter Newsletter

We will be emailing the Winter Newsletter and Annual Report. Please make sure that your current email address is on file with the office. If you do not have a current email address on file, please forward to Marie Tedford Town Clerk at fitownclerk@fairpoint.net. Please include your full name with your email address submission. This will allow us to reach you with any pertinent information year round. Our last few mailings had many returns or bounce backs.

MEMSRR Quarterly Progress

In an effort to provide feedback and help improve the quality of the reports entered into the Maine EMS Run Reporting (MEMSRR) System, Maine EMS sends services quarterly progress reports. These reports will begin by focusing on Report Entry Time and Report Validity. This report looks at the preceding quarter and provides a snapshot of our service’s performance. The enclosed report is for 51 patient care contacts during the 2015 season.

1. Report Entry Compliance

Maine EMS rules require services and providers to enter patient care reports into the MEMSRR within 1 business day. For patient care purposes, services and providers should strive for as soon as possible! Providing a complete and timely run report is an essential part of providing quality patient care and is an obligation we have to each patient.

Providing a complete patient care report is the only skill we perform in every patient encounter. The information documented in a run report is an important part of the patient medical record and is invaluable in assisting with patient treatment decisions.

Frye Island Rescue Service score-100%

2. Report Validity

The MEMSRR validity rule system helps guide providers towards a complete report. The validity score helps administrators identify reports that are missing critical elements of a report; a lower score means that more elements are missing. Reports do not need to be 100% to be complete; however, this system helps identify reports that should be reviewed. Ideally, a service would have an average validity score between 80% and 100%.

Completed reports are utilized at a number of levels. A service can use this information for quality assurance and improvement activities to ensure the population of its coverage area are receiving the best care possible and resources are being utilized to their full potential. Hospitals use the reports to make clinical decisions and shape the care the patient receives both in the emergency room and after admission. Primary care physicians will use the information to determine the care that is necessary to ensure proper care and safety for their patient when they return home.

Pre-hospital protocols are also influenced by the information documented on patient care reports. With each protocol revision, information from the EMS patient care report has been used to determine the effectiveness of treatments and provide insight on what EMS services and personnel are experiencing for calls in the field. This will help guide the Medical Direction and Practices Board (MDPB) to develop protocols enabling the safe and effective treatment of our patients.

For any of these benefits to occur, services must ensure that providers are entering a complete and accurate run report. **Frye Island Rescue Service score-100%**

As of October 5, 2015, a survey of the Frye Island Rescue Service calls for patient care was averaged over an approximate 51 calls to date. I am pleased to report that the average time the Frye Island Rescue Service reaching a patient with a licensed EMT from tone out to on scene is **2 minutes 28 seconds**.

Department of Public Works

The Leisure Lady ferry is on the haul out for painting, so only one boat will be available until closing.

The DPW has quantities of rocky fill to dispose of. Any

resident interested, can call the DPW at 655-7493 and request a free load and delivery. We have ample supplies as our latest round of waterline was very rocky and we need to make room.

We still have mulch available at \$100 per 6 yard load delivered.

Results of the employee/volunteer golf tournament, 1st place team, Dana Moniz, Tim Knight, Ed Dionne and Harry Holgersen. Thanks to Chef Willie Campbell for the delicious lunch. Fun was had by all, we are truly lucky to have such a great bunch of employees! Though not great golfers!

Many thanks to Dave and Amy Wagner for a great community celebration!
