INDEPENDENT AUDITORS' REPORT

Members of the Board of Trustees
Frye Island Municipal Services Corporation
Frye Island, Maine

We have audited the general purpose financial statements of Frye Island Municipal Services Corporation for the year ended December 31, 1998, as listed in the table of contents. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As more fully described in Note 1 to the financial statements, the general purpose financial statements referred to above, do not include a statement of general fixed assets account group required by generally accepted accounting principles. The amount that should be recorded in the general fixed assets account group is not known.

In our opinion, except for the effects on the financial statements of the matter described in the preceding paragraph, the general purpose financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Frye Island Municipal Services Corporation as of December 31, 1998, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the general purpose financial statements taken as a whole.

FRYE ISLAND MUNICIPAL SERVICES CORPORATION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1998

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Frye Island Municipal Services Corporation was organized in 1976 and operates under a Board of Trustee Quasi-Municipal form of government. It provides to the general inhabitants services for public safety and sanitation, public works, public transportation, and recreation.

As further explained in Note 7 to these financial statements, effective January 1, 1999, all the assets, liabilities and fund balance were transferred to the Town of Frye Island.

In evaluating the Frye Island Municipal Service Corporation (MSC) as a reporting entity, management has addressed all potential component units for which the MSC may or may not be financially accountable and, as such, be includable within the MSC's general purpose financial statements. In accordance with GASB Statement #14, the MSC (the primary government) is financially accountable if it appoints a voting majority of the organizations governing board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial benefit to or impose specific financial burden on the MSC. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's general purpose financial statements to be misleading or incomplete. Based on the application of these criteria, there are no other entities within the MSC that should be included as part of these general purpose financial statements.

The accounting policies of Frye Island Municipal Service Corporation conform to generally accepted accounting principles as applicable to governmental units, except as indicated below. The following is a summary of the more significant policies:

Basis of Presentation

The accounts are organized on the basis of a fund and an account group, each of which is considered a separate accounting entity. The operation of the fund is accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund equities, revenues and expenditures. The fund is segregated for the purpose of carrying on a specific activity or attaining certain objectives in accordance with special regulations, restrictions or limitations in the financial statements. Amounts in the "Totals - Memorandum Only" columns represent a summation of the combined financial statement line items of the fund type and account group and is presented only to facilitate analysis. Since the totals include a fund type and account group that use a different basis of accounting, amounts shown in the "Totals - Memorandum Only" columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Complete comparative data (i.e., presentation of prior year totals by fund type) has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read. The following fund types and account groups are used:

Governmental Fund

General Fund - The general fund is the general operating fund. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges and the capital improvement costs that are not paid through other funds.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

Special Revenue Fund - Special revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trust or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

Account Groups

General Long-Term Debt Group of Accounts - This account group is established to account for the long-term debt that is backed by the Frye Island MSC's full faith and credit. At December 31, 1998, there was no outstanding debt balance.

General Fixed Assets Account Group - General fixed assets that have been acquired for general purposes have been recorded as expenditures in the fund making the expenditure. These expenditures are required to be capitalized at historical cost in the general fixed asset account group for accountability purposes. In accordance with practices followed by most municipal entities in the State, the Frye Island MSC does not maintain a record of its general fixed assets and, accordingly, a statement of general fixed assets, required by generally accepted accounting principles, is not included in this financial report.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Governmental funds, revenues and expenditures are accounted for using the modified accrual basis. Revenues are recognized in the accounting period in which they become available and measurable. For property taxes, available means 1998 taxes collected in the current period. During 1998 property taxes due and available within the current period were recorded in a deferred revenue account on the balance sheet. Expenditures for governmental fund types are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt which is recognized when paid.

Budgetary Accounting

Budgets are adopted for the general fund and formal budgetary integration is employed as a management control device during the year. A comparison of budget to actual is presented in the financial statements.

Inventories of Supplies

Inventories of supplies are considered to be expenditures at the time of purchase and are not included in the general fund balance sheet.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting(Continued)

Estimates

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. These estimates and assumptions affect the reported amounts of assets, liabilities, the disclosure of contingent liabilities, and the reported revenue and expenses.

Note 2 - DEPOSITS AND INVESTMENTS

Frye Island Municipal Services Corporation's policy is to invest all available funds at the highest possible rates, in conformance with legal and administrative guidelines, while avoiding unreasonable risk. The funds are invested in savings and money market accounts coinciding with its cash needs during the year.

The deposits are categorized as follows to give an indication of the level of risk assumed at year end: Category 1 includes deposits covered by federal depository insurance or by collateral held by the Corporation or by the Corporation's agent in the Corporation's name; Category 2 includes uninsured deposits covered by collateral held by the pledging financing institution's trust department or agent in the Corporation's name; and Category 3 includes uninsured and uncollateralized deposits.

At December 31, 1998, cash and cash equivalents consisted of the following:

	Carrying <u>Amount</u>	Bank <u>Balance</u>		<u>CATEGORY</u>

	<u>\$221,950</u>	<u>\$241,867</u>	<u>\$171,619</u>	<u>\$0</u>		<u>\$70,248</u>

Note 3 - PROPERTY TAX

Frye Island Municipal Services Corporation's property tax for the current year was levied on the assessed value listed as of April 1, 1997 from the Town of Standish, Maine. Assessed values are periodically established by the assessor at 100% of assumed market value. Each property must be reviewed no less than once every four years. The assessed value, upon which the levy for the year ended December 31, 1998 was based, was \$29,698,900. Schedule 2 summarizes the 1998 levy.

Frye Island Municipal Services Corporation is permitted by the laws of the State of Maine to levy taxes to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay.
